

BUILDING TECHNOLOGY

Here's Your May, 2020 Instrumentation News

Are Your Chiller Projects Skating on Thin Ice?

If not closely monitored, refrigerants can escape into the atmosphere becoming hazardous to both personnel and our environment. Fortunately, there are proven technologies available to building contractors and owners to detect and measure leaks.

Product Focus:

ONICON Thermal Flow Meter

ONICON's F-5000 Series Thermal Mass Flow Meters provide accurate mass flow measurement of natural gas, compressed air, and other industrial gases. The proprietary sensor design measures mass flow directly and does not require additional pressure or temperature compensation to deliver accurate flow rate and total data.

Going 1-on-1 with: John Downing

As Vice President of Operations, John Downing is involved in many areas of the company. From sales support and planning through installation, and service, John works with AEB clients every step of the way. We sat down with John (keeping social distancing of course) to learn more.
