

Here's Your August, 2019 Instrumentation News

"Today we can set a temperature confident that our facility will be within 1/10 of a degree."

In hospitals and other wellness facilities, heating and cooling inefficiencies have a direct bearing on the comfort, health and wellbeing of patients and visitors alike. Additionally, energy costs associated with the inefficient heating/cooling of such massive facilities can quickly add up. So when HVAC control and reliability became a problem at one of the country's most respected Ohio-based hospitals, AEB stepped in to help.

TAMCO Aluminum**

Airfoil Control Dampers

TAMCO manufactures high-end dampers and air control products, serving commercial, industrial and institutional markets. TAMCO entered the ventilation industry in 1955, and in 1980 began to engineer and produce an innovative line of aluminum dampers. Great attention has been devoted to design, in order to develop products which are durable, maintenance-free, energy efficient, and unparalleled in performance. TAMCO continues to lead the charge, bringing creative solutions to the air control market.
