Case Study: Time and Cost Savings with AEB and TAMCO

In hospitals and other wellness facilities, heating and cooling inefficiencies have a direct bearing on the comfort, health and well-being of patients and visitors alike. Additionally, energy costs associated with the inefficient heating/cooling of such massive facilities can quickly add up. So when HVAC control and reliability became a problem at one of the country's most respected Ohio-based hospitals, AEB stepped in to help.

Partner Focus: TAMCO Dampers

TAMCO entered the ventilation industry in 1955, and in 1980 began to produce an innovative line of aluminum dampers. Great attention has been devoted to design, in order to develop products which are durable, energy efficient, maintenance-free, and unparalleled in performance.

Manufacturer's Update! ONICON F-4300 Flow Meter

The ONICON F-4300 Clamp-on Ultrasonic Flow Meter is the ideal tool for measuring flow when it is difficult to install insertion or inline flow meters. The meter utilizes a matched pair of high precision signal transducers to measure flow through the pipe wall. It is designed for use with pipes ranging from 1/2" to 48" in diameter and works with most commonly used pipe materials.
