## *Here's Your June, 2021 Instrumentation News*

### **Chlorine Gas Detection**

Chlorine is a common chemical used to keep water supplies and swimming pools free of bacteria and other microbes. But when not regulated, Chlorine can be dangerous, even deadly. AEB provides solutions from Critical Environment Technologies for the continuous monitoring of chlorine for swimming pools in recreational facilities or hotels.

### **Case Study:**

#### **Dayton Library Parking Garage**

Parking garages might seem like a simple, low-tech construction; and comparatively speaking most are. However, because the structure is meant to house automobiles and similar gasoline-powered vehicles, there are related hazards that must be accounted for.

So, when Ohio's Dayton Public Library wanted to ensure the safety of patrons in its new multi-story parking garage, AEB Technologies stepped in to help.
