## Here's Your April, 2022 Instrumentation News

### A Closer Look at Room Pressure Monitoring

There are several options available for measuring room pressure. On the surface many seem to have a reasonable comparison, but CRC is extremely versatile and offers several advantages. This article highlights some of what sets CRC Room Pressure Monitors apart.

### Outdoor Airflow Measurement

To ensure occupant safety and comfort, air brought in from the outside must be accurately measured. Additionally, managing airflow is critical in reaching energy savings goals, and regulations associated with today's high-performance buildings.

This article from the **AEB archives** covers airflow measurement challenges, technologies, and best practices.

## Case Study: Parking Garage

Compared to modern hi-tech buildings, parking garages are relatively simple constructions. However, because the structure is meant to house gasoline-powered vehicles, there are hazards. So, when Dayton Ohio's Public Library needed to ensure the safety of patrons in its new multi-story parking garage, AEB Technologies stepped in to help.

## Contributing to a Healthy Planet

AEB is proud to do our part to help ensure a more sustainable planet. After searching for a meaningful way to contribute to reforestation, we have found it.

Team Trees is an organization with a goal of planting 30M trees by 2022 (\$1 = 1 tree planted). Follow [this link](#) to join the AEB team or make your own contribution to this amazing cause!

## A Penny for Your Thoughts

At AEB our job is to help you to do your job. Please share your thoughts or suggestions. Let us know how our products are performing, additional product lines you might like to see us carry, new services we can provide, or whatever else you might have on your mind.

We're all about making your job easier. Let us know how we can help!
